Boarding School Syndrome is increasingly recognized as a specific syndrome by psychologists, psychotherapists and counsellors. Many adults are suffering long-term emotional or behavioural difficulties, which stem from having lost normal family life through being sent away to boarding school as children.

~~Boarding school syndrome: The symptoms and long term...~~

Boarding school syndrome is a way of describing how a person 's natural attachment patterns have been disrupted (damaged) through the trauma of being separated from their primary carer. The two conditions are not mutually exclusive and have some similarities in common.

~~Boarding School Syndrome | Brighton and Hove Psychotherapy~~

Boarding School Syndrome is an analysis of the trauma of the 'privileged' child sent to boarding school at a young age. Innovative and challenging, Joy Schaverien offers a psychological analysis of the long-established British and colonial preparatory and public boarding school tradition. Richly illustrated with pictures and the narratives of adult ex-boarders in psychotherapy, the book demonstrates how some forms of enduring distress in adult life may be traced back to the early losses of ...

~~Boarding School Syndrome: The psychological trauma of the ...~~

In an article published in the British Journal of Psychotherapy in May 2011 I introduced the term Boarding School Syndrome to identify a set of lasting psychological problems that are observable in adults who, as children, were sent away from their home at an early age to boarding schools.

~~Joy Schaverien | Boarding School Syndrome~~

A Jungian psychoanalyst, Schaverien first coined the term “ boarding school syndrome ” a decade ago, after seeing a multitude of former pupils among her patients – characterised by problems with...

~~The truth about 'boarding school syndrome'~~

The symptoms of what we call being a Boarding School Survivor, also known as Boarding School Syndrome, are varied and complex. They include difficulties in relationships and parenting, workaholism, inability to relax, isolation, being experienced as a bully, substance abuse, a sense of failure, as well as physical, sleep, and sexual problems.

~~Boarding School Survivors – Symptoms~~

Boarding School Syndrome In this article the author, Jungian analyst and Visiting Professor at Leeds Metropolitan University Joy Schaverien, suggests that there is a cluster of symptoms and behaviours common in adults presenting for psychotherapy who had been sent to boarding school at an early age.

~~Boarding School Syndrome—Catherine Cox~~

The clinical work and writing of Professor Joy Schaverien has now made “ boarding school syndrome ” a mainstream topic in psychoanalysis. The help is available. The help is available. But the stiff upper lip class is trained not to complain, but to keep calm and carry on – noble-sounding ideals but too often carrying a subtext that is contempt for weakness and the very fact of needing help.

~~The Hidden Pain of a Boarding School Childhood~~

It describes the history and social context of boarding, the inevitability of ‘ Boarding School Syndrome, ’ as well as the process of de-constructing a ‘ Strategic Survival Personality ’. It offers pointers towards a philosophy of education that honours the needs and the intelligence of the natural child.

~~Boarding School Survivors~~

'Boarding school survivors' are often very competent, high-achieving individuals who may be acutely uncomfortable about asking for help. For the most part, they are unconscious of the fact that they are suffering from a specific, common syndrome treatable by a variety of psychotherapeutic approaches.

~~Boarding Recovery—Boarding School Recovery~~

Boarding School Syndrome is not a medical category, but a proposal that there is an identifiable cluster of learned behaviours and emotional states that may follow growing up in boarding school, which can lead to serious psychological distress.
