Designed with world-class DJs to advance performance and handling, the innovative second generation of CDJ-800s are stylishly tailored to extract the utmost creativity from the digital revolution. The MK2s feature convenient MP3 compatibility, a folder search facility and an improved jog wheel. They allow you to create, cut and manipulate loops live using the new auto beat loop command and provide extra memory for storing cue/loop points.

The CDJ-1000 (retroactively known as the mk1 after the release of mk2) was a digital turntable by Pioneer Electronics in 2001 that was used to play CDs and was generally accepted as the first CD player that can accurately emulate a vinyl turntable - including the ability to scratch - and became a popular CD player used by DJs.. The player implements a large touch-sensitive platter with a ...
