Johnson's theory is that the modern world was created in the years between 1815 and 1830 and he takes a 1000 pages to try and prove his thesis. It is a book packed with facts and story both big and small that he uses to make his point.

THE BIRTH OF THE MODERN | Kirkus Reviews

The Birth of the Modern: Europe and Its Others I downloaded this series of lectures because I was interested in the subject and I really wanted to learn what the course has to offer. I think the professor has a lot of interesting knowledge to impart, but his frequent "ahs" and changing what he is saying in the middle of a sentence makes for a painful listening experience.

Impressionist Decorations: The Birth of Modern Décor

A thoroughly enjoyable account of how the modern world came to be modern. It starts with Kijinsky, the Russian dancer, who defied all the conventions of the time. The research is exhaustive and the facts he unearths make it a lively and scholarly book. If you like reading history, I do recommend this book.

that this period could reasonably be described as the 'birth of the modern world' - a phrase encompassing the rise of the nation state, demanding centralisation of power or loyalty to an ethnic solidarity alongside the massive expansion of global commercial and intellectual links. Bayly is clear that 'modernity' is a state of mind as much as anything
