Scratch is a free programming language and online community where you can create your own interactive stories, games, and animations.

Scratch - Scratch

I was recently introduced to coding. Which at first was way over my head. I had no idea what it was. I used a website called Scratch to make sea animal move around under the sea (you can make anything move around in several different backgrounds). View my video, and press the green flag to make the animals move.. I do not think that this would be something that I would introduce to my students ...
